

Mental Health Foundation welcomes external review into deaths at Hillmorton Hospital

20/03/2008 02:55:00 PM

The Mental Health Foundation welcomes the external review into three recent unexpected patient deaths at Hillmorton Hospital.

Judi Clements, Chief Executive of the Foundation says “It is important that an independent inquiry is carried out because concern has been raised about patient safety. However, it would be inappropriate to comment on any individual case at this time as we do not have all of the facts.”
